

## Aug 2000: Biosecurity & Pest Management

Biosecurity & Pest Management. Implications of the Painted Apple Moth eradication programme.

Report to the Minister of Biosecurity.

Hana Blackmore for the Society Targeting Overuse of Pesticides NZ. August 2000.

Report raising concerns about the failure to eradicate the fifteen month-old Painted Apple Moth infestation in West Auckland and the implications for pest-management strategies in New Zealand. Details the need for an urgent review of current Biosecurity, pest management programmes and policies.
