

Feb 2001: Timeline Comparison of Two Moth Eradication Programmes

Timeline Comparison of Two Moth Eradication Programmes.

Hana Blackmore. February 2001.

Detailed timetable comparing the responses and actions taken by the government to eradicate the White Spotted Tussock Moth (April 1996 – April 1999) and the attempted eradication of the Painted Apple Moth (April 1999 – January 2001).

Taken from the joint paper, Tackling tussock moths: strategies, timelines and outcomes of two programs for eradicating tussock moths from Auckland Suburbs. Clearwater, Gries & Blackmore. Presented to the Eradication of Island Invasives international conference, University of Auckland February 2001.
