

May 2002: PAM Eradication - Community Option

Painted Apple Moth Eradication – Community Option. Report and Recommendations of Special Science Meeting.

Dr Meriel Watts and Hana Blackmore for the Painted Apple Moth Community Advisory Group (PAM-CAG). May 2002.

Report of a specially convened science meeting of six scientists with experience in successful eradication of NZ insect pests, to critique, develop and strengthen the community's option for eradicating the Painted Apple Moth. The report formed part of the community submission to the Ministry of Agriculture and Forestry's (MAF) eradication options to the Government. It includes the PAM Community Advisory Group's 10 point plan for eradication.
